LeSS EXAMPLE

BY JANE & CHOKCHAI, ODDS

ABOUT ODDS

“A group that believes software development should be joyful and advocates deliberate practice.”

“ODDS TEAM ”

LeSS EXAMPLE

“We serve as empirical evidence, illustrating the outcomes that arise when we function within the framework of Large Scale Scrum.”

AGENDA

01 - Introduction

02 - What will the visitor observe upon arrival?

03 - Top 3 FAQ

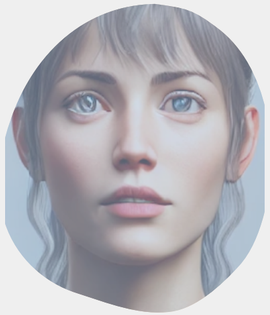

04 - Top 3 Impressions

05 - Conclusion

The teams talk directly to customer and stakeholders

01 **User Requirements**

Blindly follow “User requirements”

02 **Solution Provider**

Start to think about a business

03 **Experiment Mindset**

The team's choice will determine their outcome: success or learning.

05 - Conclusion

Keys Practices

01 **Product Level: From project mindset to product mindset**

Using a concept and User Story Mapping as a tool to transform project to product.

02 **Team Level: From component team to feature team**

Team that cross-functional, cross-component even cross project. If the team stay together long enough you will get the team like what you saw

03 **Individual Level: From programmer to product developer**

I don’t think about business, I am thinking like a business

DARE TO DREAM
